SUMMARY

Data scientist with 8 years of experience building NLP and search systems. Comfortable taking a model from notebook to production.

EXPERIENCE

Senior Data Scientist | Persistent Systems | Jan 2021 - Present

- Built a BERT-based named entity recognition model for contract documents, raising F1 from 0.71 to 0.89
- Designed a semantic search service on Google Cloud (Vertex AI, BigQuery) serving 2M queries per month
- Reduced inference latency by 45% by distilling the model and moving to ONNX runtime
- Mentored 3 junior data scientists and ran the team's weekly paper reading group

Data Scientist | Fractal Analytics | Jul 2018 - Dec 2020

- Developed churn prediction models in Python and scikit-learn for a telecom client with 12M subscribers
- Automated feature pipelines with Airflow and SQL, cutting report turnaround from 3 days to 4 hours
- Ran A/B tests and statistical analysis for pricing experiments
